# HAGI

INDONESIAN ASSOCIATION OF GEOPHYSICISTS

[www.hagi.or.id](http://www.hagi.or.id)

[www.hagi.or.id](http://www.hagi.or.id)

**HAGI was established in 1976 and until early 2015 have enlisted 3060 members, professionals from oil & gas, mining and geothermal industries, as well as government officials, academics and students throughout Indonesia, Australia and Malaysia represented by total 19 regional commissioners.**

**Scholarship**

The scholarship is granted for two students of geophysics bachelor program in every regional commissioner for four semesters duration.

**Field Trip**

The regional commissioner in collaboration with local universities are running this activities throughout the year.

**Geophoto**

This photo hunting competition has been carried out in every Annual Convention since 2006. The best and favourite photos will be documented in a limited edition photobook and available for anyone interested in Indonesia geo-tourism.

**Journal & Publication**

Jurnal Geofisika is a scientific journal for researchers, lecturers and students alike to publish their findings in a technical written format which will be shared to all HAGI members.

HAGI also published Geo-Resonansi, a quarterly magazine covers all HAGI's on-going activities including technology reviews and expert profiles.

**Natural Disaster Mitigation**

Knowing Indonesia is situated in the ring of fire, HAGI has created a disaster mitigation public awareness program to be socialized in high risk area.

**Disaster Relief**

HAGI has donated disaster relief fund for the victims of Mount Sinabung eruption in North Sumatera, and Banjarnegara landslide in Central Java.

**Luncheon Talk**

Conducted six times a year, Luncheon Talk is where professionals and experts share their thoughts regarding the latest hot topic in the industry thus the audience is not strictly geophysicist.

**Regular Course**

Every year HAGI holds approximately fifteen regular course with various topic ranging from basic petroleum engineering to advance geophysical method

**Guest Lecture**

This free technical event is being held 24 times a year. The lecturers are professionals in the industry who want to contribute and share their knowledge to university students throughout Indonesia.

**Annual Meeting & Joint Convention**

The HAGI Annual Convention is one of the regular technical events which present papers, posters and presentation from all geophysicist in Indonesia. The biennial Joint Convention is a collaboration event with other geoscience association which is one of the biggest technical event in Indonesia.
