**The above short course agenda was developed for geology and geophysics students that have not had much exposure to how geoscience is applied in industry. It can be tailored for undergraduate juniors and seniors or graduate students. The agenda can be modified to meet specific needs and time constraints. Contact the visiting geoscientist Fred Schroeder at [fred.w.schroeder@exxonmobil.com](mailto:fred.w.schroeder@exxonmobil.com) to discuss options.**
