WORKSHOP OUTLINE

WORKSHOP OVERVIEW

The AAPG/EAGE Petroleum Systems of the Middle East, 2nd Edition workshop will gather industry experts, academics, and practitioners to address critical challenges and showcase innovative solutions for unlocking the energy potential within both conventional and unconventional plays in petroleum systems of the Middle East. This workshop will explore the region's unique geological complexities and provide a platform for sharing cutting-edge ideas and practices in petroleum systems. It will focus on key challenges in reservoir characterization, hydrocarbon migration, and trap integrity. Particular attention will be given to overcoming limitations encountered in tight reservoirs, fractured carbonates, and deep-basin Paleozoic plays-areas, where traditional exploration methods often less effective. Through case studies and advanced geochemical and basin modeling techniques, participants will gain valuable insights into breakthrough approaches for exploration and production in these complex systems.

For the first time in the Middle East, this workshop will introduce the role of petroleum systems analysis in supporting the decarbonization of energy. This includes the assessment of natural hydrogen potential where petroleum systems provide a promising framework for assessing key hydrogen geochemical indicators and modeling hydrogen migration. Basin-wide thermal and flow modeling can also be applied to the assessment of geothermal potential and to the sequestration of CO₂ in aquifers.

In addition, the workshop will highlight the transformative impact of digital technologies on petroleum system modeling, showcasing how AI, machine learning, and advanced digital analytics are enhancing subsurface evaluation by improving accuracy, efficiency, and predictive capabilities.

KEY SESSIONS AND TOPICS

- Petroleum Systems of the Middle East – Challenges and Opportunities: Cenozoic Petroleum Systems
- Petroleum Systems of the Middle East – Challenges and Opportunities: Mesozoic Petroleum Systems
- Petroleum Systems of the Middle East – Challenges and Opportunities: Paleozoic and Older Petroleum Systems
- New Advancements in Petroleum Systems Modeling and Applications to the Decarbonization of Energy
-

Through these sessions, participants will gain a comprehensive understanding of how Middle Eastern energy resources can be developed sustainably, while advancing technological innovation and ensuring a responsible approach to energy exploration. This workshop will serve as a forum for knowledge sharing and collaboration, paving the way for an efficient and sustainable future in energy development.

WORKSHOP GUIDELINES

FORMAT

The workshop will be 3 days, consisting of oral presentations, poster presentations and breakout sessions where participants can discuss and investigate a specific theme that is of mutual interest. The first day will feature an inaugural keynote speech by a high-profile professional from the industry.

ATTENDANCE

Registrations are invited from all relevant disciplines with experience and/or knowledge of the subject areas being addressed in the workshop. Registrations will be accepted on a first-come, first-served basis.

CALL FOR POSTERS

You are invited to prepare a poster for presentation at the workshop. If you are interested in participating, please send a short abstract to cnavarro@aapg.org by **30 September 2025**. All posters will be produced as pull-up banners and delivered by AAPG and EAGE. There will not be any other format available for poster display.

REGISTRATION TYPES & FEES

Fees are inclusive of onsite documentation, coffee breaks and luncheons.

\$1,850 Non-Member	\$850 Young Professional **
\$1,650 Member *	\$500 Academia
\$1,550 Committee/Presenter	\$350 Student (Masters)

*To avail the Member rate you must be an active member of AAPG, EAGE, DGS, GSO or KGS.

**To register as a Young Professional you must be under the age of 35 with less than 10 years of work experience.

REGISTRATION DEADLINE

To guarantee your seat, please make sure to register by **21 October 2025**.

CANCELLATION POLICY

AAPG will refund the tuition, less a \$100 processing fee, if the request is received no later than 30 days prior to the workshop. Cancellations must be made in writing. The registrar will accept cancellation notices by telephone, but all such notices must be followed up by fax or e-mail. No refund will be made for cancellations received less than 30 days prior to a workshop being given. Nonpayment of tuition does not constitute automatic cancellation. If no cancellation notice is received by 30 days prior to a workshop, participants are liable for full tuition. AAPG reserves the right to cancel a workshop if enrollment is insufficient to ensure proper effectiveness. Substitutions for individuals can be made at any time. A paid enrollment may be transferred one time to a future workshop if the request is received prior to the 30-day cut-off date.
