## WORKSHOP OUTLINE

### WORKSHOP OVERVIEW

The Middle East has long been a global energy powerhouse, with its hydrocarbon production historically dominated by carbonate Cenozoic and Mesozoic reservoirs. However, major oil and gas accumulations also exist in supergiant fields within Mesozoic clastic reservoirs in the Arabian Gulf (both onshore and offshore, contributing to major hydrocarbon production). In fact, some combine to form the largest offshore field in the world, the Safaniya oil field in the northern Arabian Gulf, offshore of Saudi Arabia. Similarly, other giant and supergiant oil fields, in southern Iraq and Kuwait, for example, contain hydrocarbons trapped in Mesozoic siliciclastic reservoirs. In addition to the classic Mesozoic clastic reservoirs, large discoveries have been made in the Paleozoic clastic successions since the mid-1980s. These Paleozoic sandstone reservoirs form important productive intervals in the Arabian Plate. However, they have often been overshadowed by the younger, more prolific carbonate plays.

The economic development of these prolific clastic reservoirs would not have been possible without an improved understanding of the geological controls on reservoir performance. Significant risks are associated with the exploration and development of clastic reservoirs in the Arabian Plate, nonetheless these can be mitigated through the use of multiple innovative and applied geoscience techniques.

The 6th Edition of the AAPG Siliciclastic Reservoirs of the Middle East Geosciences Technology Workshop (GTW) will incorporate studies on a wide variety of topics of these prolific clastic reservoirs of the Arabian Plate, including regional and sub-regional petroleum potential, sequence stratigraphy, depositional systems, and integrated geological controls on reservoir development. Additionally, this year's workshop will address carbon capture and storage, application and management of digital transformation, and emerging topics such as sand injectites and mineral exploration in clastic depositional systems. These studies will showcase the recent advancements in understanding clastic reservoirs of the Arabian Plate that has been aided by technological innovations in reservoir exploration, development, and performance.

## WORKSHOP GUIDELINES

### FORMAT

The workshop will be 3 days, consisting of oral presentations, poster presentations, core display sessions and breakout sessions where participants can discuss and investigate a specific theme that is of mutual interest. The first day will feature an inaugural keynote speech by a high-profile professional from the industry.

### ATTENDANCE

Registrations are invited from all relevant disciplines with experience and/or knowledge of the subject areas being addressed in the workshop. Registrations will be accepted on a first-come, first-served basis.

### CALL FOR POSTERS

You are invited to prepare a poster for presentation at the workshop. If you are interested in participating, please send a short abstract to [cnavarro@aapg.org](mailto:cnavarro@aapg.org) by **3 November 2025**. All posters will be produced as pull-up banners and delivered by AAPG. There will not be any other format available for poster display.

### REGISTRATION TYPES & FEES

Fees are inclusive of onsite documentation, coffee breaks and luncheons.

\$1,850 Non-Member
\$1,850 Join & Save
\$1,650 Member *
\$1,550 Committee/Presenter
\$850 Young Professional **
\$500 Academia
\$350 Student (Masters)

\*To avail the Member rate you must be an active member of AAPG, KGS, GSO or DGS.

\*\*To register as a Young Professional you must be under the age of 35 with less than 10 years of work experience.

### REGISTRATION DEADLINE

To guarantee your seat, please make sure to register by **24 November 2025**.

### CANCELLATION POLICY

AAPG will refund the tuition, less a \$100 processing fee, if the request is received no later than 30 days prior to the workshop. Cancellations must be made in writing. The registrar will accept cancellation notices by telephone, but all such notices must be followed up by fax or e-mail. No refund will be made for cancellations received less than 30 days prior to a workshop being given. Nonpayment of tuition does not constitute automatic cancellation. If no cancellation notice is received by 30 days prior to a workshop, participants are liable for full tuition. AAPG reserves the right to cancel a workshop if enrollment is insufficient to ensure proper effectiveness. Substitutions for individuals can be made at any time. A paid enrollment may be transferred one time to a future workshop if the request is received prior to the 30-day cut-off date.
