

EMD Annual Leadership Meeting
March 31, 2007
Website Committee Report
Creties Jenkins, Chairman

Significant time and energy has been devoted to upgrading the EMD website over the past few months. In addition to updating many of the pages, a comprehensive effort has been undertaken to revise the technical committee and councilor pages in the members-only area. The objectives are to maximize the information that members will find most useful and to make the pages consistent in terms of their format and content. An effort has also been made to update the non-member pages (especially the technical areas write-ups) in order to attract new members. Future plans include 1) linking the technical committee and councilor pages to AAPG meeting abstracts and the "Search and Discovery" pages, 2) establishing pages for the International Regions.

I would like to thank Janet Brister and Norma Newby for all their work in implementing the recent changes to the website, and the Executive Committee for their guidance and support. I would also like to thank all the councilors and technical committee chairs for their work in supplying the reports, calendar items, and weblinks for their respective pages.

I invite you to visit the website and I hope you'll send me your comments and suggestions for improvements.
