Re: Report for the EMD Annual Meeting, April 19, 2008

Significant work was accomplished to update and upgrade the EMD website in 2007. I reviewed the webpages and made two requests for major updates on April 29 and August 27. The second request included a visit to Tulsa to discuss and implement the updates with Janet Brister. Materials that were updated included notices of future meetings, the 2007 annual meeting reports, staff changes to committees, etc.

A number of upgrades were also made to the website in 2007. These include creating webpages for the regions, adding nomination forms for the Honors and Awards committee, posting numerous articles (such as Explorer articles) and Powerpoint slide presentations, and generating links to the AAPG Search and Discovery pages.

The current focus is on 1) obtaining additional content for the councilor and committee webpages, 2) updating the website with new outreach materials and reports from the annual convention, and 3) ensuring that all of the existing links are working properly. We also will be adding information and links for upcoming events, including the 2009 annual convention and the section/region meetings.

Please visit the website and send me your comments and suggestions for improvements. It is YOUR website so please help to make it better.
