# Call for Abstracts Opens 5 November 2018

## TECHNICAL PROGRAM THEMES

Industry professionals, academics, and students are invited to submit abstracts that relate to any of the listed themes below. Oral and poster sessions will be determined by actual submissions.

### BASINS AND PETROLEUM SYSTEMS

- Emerging Basins
- Subandean Basins
- Petroleum Systems and Modeling
- Geochemistry

### UNCONVENTIONAL RESOURCES

- Global Perspectives of Unconventional Resources
- Rock and Fluid Characterization of Unconventional Reservoirs
- Reserves Estimation Methods
- Frontier Plays
- Advances in Vaca Muerta
- Early Development Case Studies
- Application of New Technologies in Unconventional Resources

### STRUCTURAL GEOLOGY, TECTONICS, AND GEOMECHANICS

- Regional Tectonics
- Fold and Thrust Belts
- Geomechanics in Conventional and Unconventional Workflows
- Extensional Environments

### STRATIGRAPHY AND SEDIMENTOLOGY

- Siliciclastics
- Carbonates and Evaporites
- Shales
- Stratigraphic Forward Modeling

### GEOPHYSICS

- Seismic Imaging, Processing, and Acquisition
- Microseismicity and Induced Seismicity
- Non-Seismic Geophysical Techniques

### DEEP WATER EXPLORATION AND PRODUCTION

- Frontier Deep-Water Plays
- Atlantic Basins
- Reservoir Characterization and Modeling
- Subsalt and Presalt Imaging, Traps, and Play Types
- Tectonics, Sedimentation, and Stratigraphic Traps in Deep-Water Systems

### MATURE FIELDS

- Enhanced Oil Recovery
- New Ideas In Old Plays
- Case Histories
- Integrated Studies and Solutions

### ENERGY AND ENVIRONMENT

- Mitigating Environmental Impacts In the Oil and Gas Industry
- Renewable Energy Integration: Geothermal, Solar, Wind, and Biofuel
- Surface and Groundwater Monitoring

### For More Information Contact:
