

AAPG International Conference & Exhibition

SAVE THE DATE!

Geoscience and Innovation to Fuel the Energy Future

Co-hosted by

ICE.AAPG.org

Technical Sessions

1. Basins, Petroleum Systems, Stratigraphy and Sedimentology
2. Structural Geology, Tectonics and Geomechanics
3. Deepwater Exploration and Production
4. Geophysics
5. Unconventional Resources
6. Energy, Society and Environment
7. Critical Minerals for Energy Diversification
8. Geodata Science and Artificial Intelligence

**Call for Abstracts opens
in August 2021!**

Business Sessions

- NOC, IOC and Regulatory Agency Forums highlighting the Latin America and Caribbean Region
- Country Sessions featuring recent activity and exploration opportunities throughout the region
- Luncheon Sessions focused on the Energy Transition and the role of the Geoscientist in an Evolving Energy Market

Additional Activities

- Short courses
- Field trips
- Women in Energy Panel
- Networking Activities for Students and Young Professionals
