YANGON | MYANMAR

SPONSORSHIP/EXHIBITION OPPORTUNITIES
AAPG
Since its founding in 1917, the American Association of Petroleum Geologists has been a pillar of the worldwide scientific community. The original purpose of AAPG, to foster scientific research, to advance the science of geology, to promote technology, and to inspire high professional conduct, still guides the Association today. AAPG’s membership is made up of about 40,000 members in 129 countries in the upstream energy industry who collaborate – and compete – to provide the means for humankind to thrive. AAPG has its head office in Tulsa and regional offices in Washington, London, Dubai, Singapore, Bogota and Lagos.

EAGE
The European Association of Geoscientists and Engineers (EAGE) is a global professional, non-profit association for geoscientists and engineers with 19,000 members worldwide. The objective is to collect and distribute technical knowledge. EAGE organizes events and publishes a monthly magazine for its members and 5 scientific journals. All members of EAGE are professionally involved in (or studying) geophysics, petroleum exploration, geology, reservoir engineering, mining and mineral exploration, civil engineering, tunneling and environmental matters. EAGE’s head office is located in the Netherlands with regional offices in Moscow, Dubai, Kuala Lumpur and Bogota.
ABOUT THE CONFERENCE

Motivated by the highly successful fourth geological conference in November 2018, AAPG/EAGE, together with our affiliate society Myanmar Geosciences Society, take great pleasure in announcing the fifth edition of this well-acclaimed oil and gas conference. The conference will be held in Yangon, 4-6 May 2021, with the theme “A 2020 Vision of Myanmar’s E&P Challenges: New Plays, New Technologies, and New Research.”

Levels of exploration activity have remained high with new exploration, appraisal wells, and exciting new 2-D/3-D seismic campaigns with new developments and field extensions in the planning phase. In addition, it is expected that a new onshore and offshore licence round will be announced late 2019/early 2020.

This conference will provide the opportunity to understand the significant progress made over the last 18 months, to network, and to share experiences with colleagues. The conference will feature technical sessions on the following topics of interest:
- Regional Geology and Tectonic Evolution
- Depositional Systems from Source to Sink
- Petroleum Systems and Plays
- Field Developments
- Risk Reduction/Management
- G&G Operations (Wells and Seismic)
- Innovation and Emerging Technologies
- Reservoir, Drilling, and Production Challenges

SPONSORING OPPORTUNITIES

With an array of unique promotional opportunities, we can help you design the perfect programme to enhance your company’s experience at the 5th AAPG/EAGE Myanmar Oil & Gas Conference. The Main Sponsor Programme exposes attendees and businesses to your company and promotes your presence within the industry.

Why become a sponsor

When you are a corporate sponsor you get high visibility in a qualitative and uncluttered environment that makes your message stand out. EAGE is synonymous with quality, with proven track records in the past. The conference programme offers a diverse menu that will help you reach your target audience.

Sponsoring will enable you to:
• Increase your visibility to a national, regional and international audience
• Enhance your corporate image
• Reach an influential and exclusive audience
• Break through the media clutter
• Associate your company with international societies- EAGE and AAPG

Please note that sponsoring opportunities are not restricted to packages in this guide. We would be delighted to explore ideas to fit your budget.
