Sponsorship / Exhibition Opportunities

25-27 FEBRUARY 2020 • PORT MORESBY, PAPUA NEW GUINEA
GENERAL INFORMATION

AAPG

Since its founding in 1917, the American Association of Petroleum Geologists has been a pillar of the worldwide scientific community. The original purpose of AAPG, to foster scientific research, to advance the science of geology, to promote technology, and to inspire high professional conduct, still guides the Association today. AAPG’s membership is made up of about 40,000 members in 129 countries in the upstream energy industry who collaborate – and compete – to provide the means for humankind to thrive. AAPG has its head office in Tulsa and regional offices in Washington, London, Dubai, Singapore, Bogota and Lagos.

EAGE

The European Association of Geoscientists and Engineers (EAGE) is a global professional, non-profit association for geoscientists and engineers with 19,000 members worldwide. The objective is to collect and distribute technical knowledge. EAGE organizes events and publishes a monthly magazine for its members and 5 scientific journals. All members of EAGE are professionally involved in (or studying) geophysics, petroleum exploration, geology, reservoir engineering, mining and mineral exploration, civil engineering, tunneling and environmental matters. EAGE’s head office is located in the Netherlands with regional offices in Moscow, Dubai, Kuala Lumpur and Bogota.
ABOUT THE CONFERENCE

It has been nearly two decades since the last Petroleum Geoscience Conventions were held in Port Moresby. These conventions were organized by the PNG Chamber of Mines and Petroleum, who will be involved in this newly developed AAPG/EAGE conference. Petroleum activity of the region has flourished over the past two decades as several more fields have been discovered and large gas developments have been put into production. This science and fertile knowledge will be presented to attendees.

The conference will review the petroleum geology of Papua New Guinea in its tectonic setting as host to petroliferous Phanerozoic basins on the northeast margin of the Australian continent.

The conference will discuss established petroleum systems and plays as well as emerging and potential new plays that will contribute to future development and production.

The conference will feature technical sessions on the following topics of interest:

- PNG Geology and Petroleum Systems
- PNG Structural Geology and Tectonics
- Papuan Basin Exploration
- Clastic Reservoirs, Sedimentology and Evaluation
- Stratigraphy of Papua New Guinea
- Carbonate Reservoirs, Sedimentology and their Evaluation
- Producing Oil Fields
- Producing Gas Fields
- Innovation and Application of New Technologies
- Exploration in Other Basins
- Petroleum Resources and Endowment
- New Field Developments

SPONSORING OPPORTUNITIES

With an array of unique promotional opportunities, we can help you design the perfect programme to enhance your company's experience at this event. The Main Sponsor Programme exposes attendees and businesses to your company and promotes your presence within the industry.

WHY BECOME A SPONSOR

When you’re a corporate sponsor you get high visibility in an uncluttered environment that makes your message stand out. We are synonymous with quality and have an excellent proven track record. The conference programme offers a diverse menu that's sure to help you reach your target audience.

Sponsoring will enable you to:
• Increase your visibility before an international audience
• Enhance your corporate image
• Reach an influential, exclusive audience
• Break through the media clutter
• Associate your company with international societies - EAGE and AAPG

Please note that sponsoring opportunities are not restricted to packages in this guide. We would be delighted to explore ideas to fit your budget.
