RDRG 2004 - Dallas, Texas

Thanks to all who attended the RDRG meeting in Dallas last month (April, 2004), and especially to Dave Gray from Veritas who gave a great presentation on seismic detection using 3D seismic and azimuthal attributes. If you missed the meeting, you may [download Gray's paper on Fracture Detection using 3D Seismic](#).

We had about 75 people in attendance, and after the technical discussion, we voted **Deb Spratt (U Calgary)** into the co-chair position for the 2005 AAPG meeting in Calgary. A few people have made suggestions for both the topic and format for next year's meeting. Let me know if you have some burning ideas. Don't forget to thank our out-going academic chair, Jim Evans. Report by: Bob Krantz.

Meeting time and location:

Tuesday, April 20, 7-10 pm at the Hyatt Reunion Hotel, Reunion E

Discussion Topic:

Seismic Detection of Fractures

Speaker:

Dave Gray, Veritas Calgary
