WHAT TO EXPECT FROM THE AAPG/EAGE VIRTUAL EXPERIENCE

Due to the ongoing travel restrictions and differing guidelines from companies and organizations, the AAPG/EAGE 4th Edition: Siliciclastic Reservoirs of the Middle East GTW will now be taking place virtually from 5 - 9 December 2021 and then on-demand anytime, from anywhere, and from any device for the next 2 months. The workshop will provide the best opportunity to safely connect with industry colleagues and peers while travel restrictions, social distancing, and health concerns persist. The new dynamic all-digital platform makes it simple for you to access all the great science, networking, and technology to help you stay on the cutting edge of petroleum geoscience. Our businesses and industry are experiencing difficult times, but overcoming obstacles is what explorers do – so let's do it together.

Benefits of our virtual events:

- Easily view the live presentations, ask questions and chat with other attendees
- Easily access the technical program and details of each presentation
- View the profiles of each presenter
- Participate in breakout discussion sessions
- Networking with other attendees and schedule one on one meetings
- Access to all the presentations for up to 2 months after the workshop
- Access to a dedicated sponsorship page
- Digital delegate bag and certificate of attendance

WORKSHOP OUTLINE

The Middle East has long been known for hosting abundant hydrocarbon reserves in carbonate and siliciclastic reservoirs. Despite that a huge portion of the Middle East's proven hydrocarbon reserves are within siliciclastic reservoirs, there is still a vast knowledge-gap when it comes to the regional understanding of these important stratigraphic units. For many decades, these siliciclastic reservoirs have always been viewed in local scale, limiting any attempt for developing a better understanding of the geological factors controlling the development of these reservoirs or how their reservoir characteristics vary geographically.

Achieving a better knowledge of the Middle East siliciclastic reservoirs cannot be achieved without linking and gathering industry experts with academic researchers who share an interest in siliciclastic reservoir characterization and geomodelling. The Fourth AAPG/EAGE Siliciclastic Reservoirs of the Middle East Workshop provides a unique opportunity for industry experts and academic researchers to share their findings on any subjects related to the reservoir characteristics and geomodelling of the Middle Eastern siliciclastic reservoirs or other areas across the globe that could serve as analog to the Middle Eastern reservoirs, including but not limited to:

- Outcrop and subsurface sedimentology and stratigraphy
- Petrography and diagenesis,
- Petrophysics
- Biostratigraphy and Paleoclimate
- Geomechanics
- Reservoir geophysics
- Reservoir modelling

This five day workshop will feature oral presentations, e-poster presentations and keynotes from the leading experts in industry and academia.

Workshop Objectives

The workshop is an opportunity for attendees to receive up to date knowledge about clastic reservoir characterization, exposure to regional case studies and be introduced to innovative technologies utilized to explore and develop these important reservoirs. It provides a chance to network and to share experiences between different subsurface disciplines, service providers and operators. All participants will receive a digital summary of the breakout sessions and discussions, and the abstracts presented at the workshop.

Who Should Attend

Geologists, geophysicists, petrophysicists, petroleum technologists, reservoir engineers and managers working in the exploration, appraisal and development of siliciclastic hydrocarbon reservoirs.

WORKSHOP GUIDELINES

FORMAT

The workshop will be 5 days, consisting of presentations, e-poster presentations and breakout sessions where participants can discuss and investigate a specific theme that is of mutual interest.

ATTENDANCE

Registrations are invited from all relevant disciplines with experience and/or knowledge of the subject areas being addressed in the workshop. Registrations will be accepted on a first-come, first-served basis.

CALL FOR E-POSTERS

You are invited to prepare an e-poster for presentation at the virtual workshop. If you are interested in participating, please send a short abstract to bwelch@aapg.org by 4 November 2021. All e-poster presenters will have a dedicated 5 minute session during the technical program to present their work. Attendees will be able to further discuss the e-posters with the presenters via the virtual chat feature throughout the event.

REGISTRATION TYPES & FEES

To register using a 'Member' rate you must be an active member of AAPG or EAGE.

REGISTRATION TYPES & FEES

Member \$525
 Non-member \$625
 Faculty Member: \$200
 Faculty Non-Member: \$250
 Student Member: \$100
 Student Non-Member: \$150
 To register please visit: middleeast.aapg.org

REGISTRATION DEADLINE

To guarantee your seat, please make sure to register by 29 November 2021.

CANCELLATION POLICY

AAPG will refund the tuition, less a \$100 processing fee, if the request is received no later than 30 days prior to the workshop. Cancellations must be made in writing. The registrar will accept cancellation notices by telephone, but all such notices must be followed up by fax or e-mail. No refund will be made for cancellations received less than 30 days prior to a workshop being given. Nonpayment of tuition does not constitute automatic cancellation. If no cancellation notice is received by 30 days prior to a workshop, participants are liable for full tuition. AAPG reserves the right to cancel a workshop if enrollment is insufficient to ensure proper effectiveness. Substitutions for individuals can be made at any time. A paid enrollment may be transferred one time to a future workshop if the request is received prior to the 30 day cut-off date.
