## 4<sup>TH</sup> EDITION: AAPG/ EAGE SILICICLASTIC RESERVOIRS OF THE MIDDLE EAST GTW

### WHAT TO EXPECT FROM THE AAPG/EAGE EXPERIENCE

The American Association of Petroleum Geologists (AAPG) and our suppliers, venues and services partners are committed to providing a clean and safe environment and experience for all our event participants. We remain alert to COVID-19 risks and are closely following and adapting to all applicable health and safety guidelines. While conditions vary between countries, cities, municipalities, and facilities, safeguarding measures you may encounter at AAPG events include physical distancing and masking, readily available hand sanitizer, enhanced cleaning and disinfecting protocols, temperature health checks and screenings, minimized touchpoints and cashless payment options.

As personal safety is a shared responsibility, we ask that all participants ensure that they are feeling well and in good health, with no fever or other symptoms related to COVID-19, before showing up at an AAPG event. Any specific delegate obligations will be published in pre-event communications and clearly displayed on signage throughout our venues. Given the ever-changing nature of the pandemic recovery, registrants will receive regular updates and instructions concerning the latest health and safety requirements.

### WORKSHOP OUTLINE

The Middle East has long been known for hosting abundant hydrocarbon reserves in carbonate and siliciclastic reservoirs. Despite that a huge portion of the Middle East's proven hydrocarbon reserves are within siliciclastic reservoirs, there is still a vast knowledge-gap when it comes to the regional understanding of these important stratigraphic units. For many decades, these siliciclastic reservoirs have always been viewed in local scale, limiting any attempt for developing a better understanding of the geological factors controlling the development of these reservoirs or how their reservoir characteristics vary geographically.

Achieving a better knowledge of the Middle East siliciclastic reservoirs cannot be achieved without linking and gathering industry experts with academic researchers who share an interest in siliciclastic reservoir characterization and geomodelling. The Fourth AAPG/EAGE Siliciclastic Reservoirs of the Middle East Workshop provides a unique opportunity for industry experts and academic researchers to share their findings on any subjects related to the reservoir characteristics and geomodelling of the Middle Eastern siliciclastic reservoirs or other areas across the globe that could serve as analog to the Middle Eastern reservoirs, including but not limited to:

- Outcrop and subsurface sedimentology and stratigraphy
- Petrography and diagenesis,
- Petrophysics
- Biostratigraphy and Paleoclimate
- Geomechanics
- Reservoir geophysics
- Reservoir modelling

This three day workshop will feature oral presentations, poster presentations and keynotes from the leading experts in industry and academia, as well as a field trip to the geological outcrops of the early Paleozoic successions in Saudi Arabia. On behalf of the entire organizing committee, we look forward to seeing you in Dhahran.

#### Workshop Objectives

The workshop is an opportunity for attendees to receive up to date knowledge about clastic reservoir characterization, exposure to regional case studies and be introduced to innovative technologies utilized to explore and develop these important reservoirs. It provides a chance to network and to share experiences between different subsurface disciplines, service providers and operators. All participants will receive a digital summary of the breakout sessions and discussions, and the abstracts presented at the workshop.

#### Who Should Attend

Geologists, geophysicists, petrophysicists, petroleum technologists, reservoir engineers and managers working in the exploration, appraisal and development of siliciclastic hydrocarbon reservoirs.

### WORKSHOP GUIDELINES

#### FORMAT

The workshop will be 3 days, consisting of presentations, poster presentations, breakout sessions and a fieldtrip where participants can discuss and investigate a specific theme that is of mutual interest. The first day will feature an inaugural keynote speech by a high-profile professional from the industry.

#### ATTENDANCE

Registrations are invited from all relevant disciplines with experience and/or knowledge of the subject areas being addressed in the workshop. Registrations will be accepted on a first-come, first-served basis.

#### CALL FOR POSTERS

You are invited to prepare a poster display for presentation. If you are interested in participating, please send a short abstract to [bwelch@aapg.org](mailto:bwelch@aapg.org) by 4 November 2021. All posters will be produced as pull-up banners and delivered by AAPG. There will not be any other format available for poster display.

#### REGISTRATION TYPES & FEES

Fees are inclusive of onsite documentation, coffee breaks and luncheons. To register as a 'Student / Young Professional' you must either be a current student or a young professional under the age of 35 with less than 10 years of work experience.

#### REGISTRATION TYPES & FEES

Member	\$1,550
Non-member	\$1,750
Young Professionals	\$850
Academia	\$500
Student	\$350

To register please visit: [middleeast.aapg.org](http://middleeast.aapg.org)

#### REGISTRATION DEADLINE

To guarantee your seat, please make sure to register by 29 November 2021.

#### WORKSHOP LOCATION

Al Khobar, Saudi Arabia

#### CANCELLATION POLICY

AAPG will refund the tuition, less a \$100 processing fee, if the request is received no later than 30 days prior to the workshop. Cancellations must be made in writing. The registrar will accept cancellation notices by telephone, but all such notices must be followed up by fax or e-mail. No refund will be made for cancellations received less than 30 days prior to a workshop being given. Nonpayment of tuition does not constitute automatic cancellation. If no cancellation notice is received by 30 days prior to a workshop, participants are liable for full tuition. AAPG reserves the right to cancel a workshop if enrollment is insufficient to ensure proper effectiveness. Substitutions for individuals can be made at any time. A paid enrollment may be transferred one time to a future workshop if the request is received prior to the 30 day cut-off date.
