WHAT TO EXPECT FROM THE AAPG EXPERIENCE

The American Association of Petroleum Geologists (AAPG) and our suppliers, venues and services partners are committed to providing a clean and safe environment and experience for all our event participants. We remain alert to COVID-19 risks and are closely following and adapting to all applicable health and safety guidelines. While conditions vary between countries, cities, municipalities, and facilities, safeguarding measures you may encounter at AAPG events include physical distancing and masking, readily available hand sanitizer, enhanced cleaning and disinfecting protocols, temperature health checks and screenings, minimized touchpoints and cashless payment options.

As personal safety is a shared responsibility, we ask that all participants ensure that they are feeling well and in good health, with no fever or other symptoms related to COVID-19, before showing up at an AAPG event. Any specific delegate obligations will be published in pre-event communications and clearly displayed on signage throughout our venues. Given the ever-changing nature of the pandemic recovery, registrants will receive regular updates and instructions concerning the latest health and safety requirements.

WORKSHOP OUTLINE

This three-day workshop has the primary goal to share knowledge, case studies, techniques and workflows pertaining to the understanding of the petroleum potential of Namibia.

Namibia has a rich and varied prospective geology ranging from the Proterozoic to Recent in age in basins that vary from intracratonic, to fold belt, to passive margin in character. All the geological elements are present for a number of potential hydrocarbon provinces to be established. Even though no commercial production has been established to date, the presence of a large number of companies exploring Namibia is testament to its exciting potential.

Workshop Objectives

The workshop will have a rich program of oral presentations and posters covering a variety of aspects of a number of petroleum systems in Namibia, both offshore and onshore. It will present integration of data from seismic, remote sensing, petrophysical, geochemical, core/outcrop samples and seismic, to better understand the tectonics, stratigraphy, reservoirs, seals and source rocks and so describe the proven and potential petroleum systems. Participants are expected to leave with knowledge and exposure to the following:

- Tectono-sedimentary evolution
- Proven and possible petroleum systems of Namibia
- The source rocks: their distribution, characteristics, burial history, hydrocarbon products and their proven / possible migration routes
- The reservoirs: ranging in age from the Tertiary to the Proterozoic, their distribution, depositional architecture and the controls on reservoir quality
- The seals and traps: seal ages, architecture, sealing capacity and controls on their integrity, plus a review of traps drilled to date, analysis of successful and non-commercial exploration programs, together with predictions for the successful plays and traps of the future
- Prospectivity of syn-rift plays offshore Namibia

Benefits of Attending

The workshop is an opportunity for attendees to receive up-to-date knowledge about the petroleum systems and exploration plays in an exciting segment of the west African margin, exposure to regional case studies and to be introduced to workflows and techniques utilized for predicting the assessment of various components of the petroleum system. It is an opportunity to network and share experiences.

WORKSHOP GUIDELINES

FORMAT

The workshop will be 3 days, consisting of oral presentations, poster presentations and breakout sessions where participants can discuss and investigate a specific theme that is of mutual interest. The first day will feature an inaugural keynote speech by a high-profile professional from the industry.

ATTENDANCE

Registrations are invited from all relevant disciplines with experience and/or knowledge of the subject areas being addressed in the workshop. Registrations will be accepted on a first-come, first-served basis.

CALL FOR POSTERS

You are invited to prepare a poster display for presentation. If you are interested in participating, please send a short abstract to bwelch@aapg.org by 5 May 2022. All posters will be produced as pull-up banners and delivered by AAPG. There will not be any other format available for poster display.

REGISTRATION TYPES & FEES

Fees are inclusive of onsite documentation, coffee breaks and luncheons. To avail the Member/Committee/Speaker rate you must be an active member of AAPG or a committee/speaker at the event. To register as a Young Professional you must either be a current student or a young professional under the age of 35 with less than 10 years of work experience.

REGISTRATION TYPES & FEES

CANCELLATION POLICY

AAPG will refund the tuition, less a \$100 processing fee, if the request is received no later than 30 days prior to the workshop. Cancellations must be made in writing. The registrar will accept cancellation notices by telephone, but all such notices must be followed up by fax or e-mail. No refund will be made for cancellations received less than 30 days prior to a workshop being given. Nonpayment of tuition does not constitute automatic cancellation. If no cancellation notice is received by 30 days prior to a workshop, participants are liable for full tuition. AAPG reserves the right to cancel a workshop if enrollment is insufficient to ensure proper effectiveness. Substitutions for individuals can be made at any time. A paid enrollment may be transferred one time to a future workshop if the request is received prior to the 30-day cut-off date.
