AAPG
Young Professionals

DEAR AAPG YOUNG PROFESSIONALS CHAPTER LEADERS,

Congratulations on establishing your new AAPG Young Professionals Chapter, and welcome to a global community of geoscientists that is proud and thrilled to support you.

Young professionals are a vital part of AAPG and the future of our industry. As early-career geoscientists, engineers, and energy professionals, you bring fresh perspectives, new ideas, and the enthusiasm needed to help shape what comes next.

The early years of your career are an important period of growth and opportunity. The connections you build, leadership experiences you gain, and knowledge you share can help shape your career for years to come. Your new chapter is an opportunity to build those connections, strengthen your local professional community, and engage with colleagues around the world.

AAPG is committed to supporting your chapter and your professional growth through:

- **Leadership and volunteer opportunities** to develop skills that make an impact.
- **Technical and professional development** through talks, webinars, workshops, and conferences.
- **Networking and collaboration** with industry professionals, fellow young professionals, AAPG regions, and affiliated organizations.
- **Global opportunities** to participate in AAPG programs, publications, and events.
- **Guidance and support** from experienced AAPG and Young Professional leaders.

Every event you organize, and every connection you make, helps strengthen our profession and build the next generation of energy leaders.

Thank you for your enthusiasm, commitment, and leadership within the field. AAPG is proud to have you in our community, and we are excited to support you as you grow, advance, and make your mark on our industry.

Sincerely,

TOM WILKER
President, AAPG
